

### PROFILE

With over 20 years of experience in management system development and implementation, compliance auditing and ISO certification support, DBell Consulting will guide your organisation in identifying and addressing your Health, Safety, Environmental and Quality (HSEQ) and Information Security risks, finding improvements in your operations, and implementing robust and scalable systems.

Based in Perth Western Australia, and certified to ISO 9001 (Quality Management Systems), our specialties are in building relationships with key stakeholders to develop and implement effective and pragmatic business practices, plan for growth, and to build organisational resilience.

Principal Consultant, Dean Bell has extensive experience across multiple sectors, including the professional services, construction and trades, mining, oil and gas, transportation and telecommunications industries, and will guide your approach to organisational process and risk management that minimises waste and supports what you're in business to do.

---
